'Green River Kings are like 30% throwing copper-era Live, 15% Dada, 15% mid-career Metallica, and 40% Hard Rock.'

—CHRIS ROBLEY, CDBABY

'The Green River Kings play muscular mid-western rock with energy and passion. There's an urgency to their songs-as if each one is being played for the last time.'

—BARRY LEE, PROGRAM DIRECTOR KKFI

'GRK is definitely a local band to watch, the different background of each member gives the band an exciting sonic edge that is a fresh separation from contemporary rock. They are one of the few Kansas City bands that remind people of the music melting pot KC used to be, and is becoming again.'
